

IAN JUDSON

ABOUT —

Ian brings a specialist focus on the execution of business plans and the documentation of organizational strategy to assist clients in establishing and implementing strategic plans for their companies and organizations. He also offers high level business experience having worked closely from both within and as a consultant to a number of major professional services organizations. Ian serves as a mentor and coach to many clients while pursuing his passion in advising small to medium size businesses.

Ian Judson is co-owner of JudsonKoman, an accounting business that uses modern financial analytical tools to help business owners and investors better understand their financial position and explore alternatives to maximize growth. By combining over 25 years of experience in the financial management field with 3HAG and other tools, he has assisted a number of growing businesses in scaling up their companies.
